Barber Rioters.

DARIEN, GA., August 30.—In the Suwanee County special session, John Delegal was indicted and arraigned for the murder of Deputy-Sheriff Townsend Morris. There was no demonstration of any kind, nor was there any evidence to sustain the charge that the ground had been covered by the condition of public opinion an unbiased jury cannot be obtained in this county.

STOCKS UNSETTLED.

COURSE OF PRICES VERY IRREGU-

LAR ALL DAY.

RENEWED ACTIVITY IN INDUSTRIALS.

Tobacco Stocks Attacked by Bears

for Effect on General Market—Ten-

newer Coal Under Pressure—Whet-

erwines—Provisions Lower.

NEW YORK, August 30.—Speculative sentiment was unsettled to-day, and the course of prices changed several times and was very irregular all day. Net changes are mostly on the side of gains, and in a group of industrial specialties the closing was at the best prices, but in the railroad stocks, which started off with quite a demonstration of strength, the net advances are generally below the extreme rise.

The upward impulse at the opening was due to the much more cheerful feeling in London regarding the Transvaal outlook. Buying for London account was about equal to yesterday's selling for the same account. There was some covering also by local bears, who sold yesterday on the Transvaal to scare. At the buying in the railroad it fell off largely after the first hour.

With the comparative dullness of railroads and a reaction in prices on realizing came renewed activity in the industrial specialties, which continued the rest of the day. The tobacco stocks and the local stocks were attacked by the bears for effect on the general market, and the market was again unsettled.

On the other hand, Brooklyn Transit continued to be vigorously supported with a view to the disbursement of the short interest. Sugar showed symptoms of desire to sell on the part of the bears. The Iron and Steel group was supported by the continued active demand for the Republic Steel issues, which lifted the common stock 15¢.

FEDERAL STEEL TO THE FRONT.

In the late trading, Federal Steel forged to the front, and rapidly to an all-time high. The municipal street railways rose slightly, and other buoyant industrials imparted strength to the railroads. Louisville, Northern Pacific and Southern Pacific were strong to a large crowd.

There were evidences of individual strength in the Hocking Valley and the Ohio River, Erie, Kansas and Texas, and the Atlantic, preferred. Chicago and Eastern Illinois, and Chicago Great Western, preferred; and Laclede Gas, North American, and Union Bag and Paper, preferred, in the Specialty. Prices of a point or over were shown by Forest Worth and Rio Grande, Duluth, South Shore and Atlantic, preferred; Minneapolis and St. Louis, and Great Northern, preferred.

The Chicago platform at the convention next year will be reaffirmed entirely. In fact, it will be strengthened to the platform will manifest itself in the convention at all. Two of the greatest of the new issues that are before the trustees are the trusts; second, the Philippine question.

CALL MONEY STIFF.

The first question can scarcely be called new; but the trusts have been so multiplied that the question assumes an importance in itself.

Many methods have been suggested for the extermination of the trusts. The most feasible, it seems to me, is to require every corporation to obtain a license to do business outside the State in which it is organized. This license can be granted under conditions which will squeeze the water out of the stock and prevent the monopolization of any industry.

This nation must choose between being a republic or an empire. An imperial state would be a burden on the people.

From a financial standpoint it will be an expense to a large majority of the people who would organize syndicates to develop the country. From a political point of view it cannot be defended. A demand for a license at Manila is not consistent with a free government in the United States. This nation cannot endure while half its people are citizens and half vassals."

How to Deal With the Trusts—The Imperial Policy.

WINNEMUCKA, NEV., August 30.—William Jennings Bryan passed through Winnemucca to-day, on his way to California, and delivered an address to a large crowd. In part he said:

"I believe the outlook for success in 1900 was never better than at present. On the one hand, we have the campaign of 1896, which is stronger than we were during that campaign. On these questions we are gaining steadily."

CALIFORNIA STOCKS.

Call money was held stiffly at 3 per cent. or above, and the tenders were more exacting about time loans, without any change in the actual rates.
